INDEX TO VOLUME XX OF THE JOHNS HOPKINS HOSPITAL BULLETIN.

Acidosis, Post-anæsthetic, 180.

Alcoholic poisioning, acute experimental, Lesions of the nerve cell and vascular tissues produced by, 139.

Amberg, S., Bleeding from the intestinal tract of an infant in the course of alimentary decomposition in the sense of Finkelstein.—A clinical note, 323.

Anders, J. M., Relative aortic incompetency of muscular origin, 205.

Aneurysm, Dissecting, 9.

Ankylosed joints, The use of animal membrane in producing mobility in, 271.

Aortic incompetency, Relative, of muscular origin, 205.

Appendicitis in the Johns Hopkins Hospital, An analysis of infantile, 31.

Appendix abscess in 27-months child; with an analysis of infantile appendicitis in the Johns Hopkins Hospital, 31.

Aretaeus the Cappadocian, 371.

Army medical corps examinations, 370.

Bacillus mucosus capsulatus, A case of general infection with, followed by an areolar abscess of the liver and general peritonitis. Autopsy, 77.

Baer, W. S., Some results of the injection of Beck's bismuth paste in the treatment of tuberculous sinuses, 318.

Baer, W. S., The use of animal membrane in producing mobility in ankylosed joints, 271.

Baker, F., The two Sylviuses. An historical study, 329.

Barker, L. F., On some of the clinical methods of investigating cardio-vascular conditions, 297.

Barker, L. F. and Sladen, F. J., A small epidemic of jaundice with symptoms of gastro-intestinal catarrh, 310.

Berkley, H. J., Lesions of the nerve cell and vascular tissues produced by acute experimental alcoholic poisoning, 139.

Berkley, H. J., The disposal of the waste of the brain tissues, 180.

Bernheim, B. M., A note on some methods of anastomosing blood-vessels, 116.

Bernheim, B. M., Experimental surgery of the mitral valve, 107.

Bismuth paste, Beck's, Some results of the injection of, in the treatment of tuberculous sinuses, 318.

Bleeding from the intestinal tract of an infant in the course of alimentary decomposition in the sense of Finkelstein.—A clinical note, 323.

Blood-vessels, A note on some methods of anastomosing, 116.

Blumer, G., A report of two cases of osteoplastic carcinoma of the prostate with a review of the literature, 200.

Books received, 29, 62, 94, 159, 191, 224, 295, 360, 391.

Brain tissues, The disposal of the waste of, 180.

Carcinoma, A report of two cases of osteoplastic, of the prostate, with review of the literature, 200.

Cardio-vascular conditions, On some of the clinical methods of investigating, 297.

Cataract extractions, Summary of results obtained and features of interest in two hundred and fifteen consecutive, 377.

Chloroform poisoning. Liver necrosis and repair, 278.

Choked disc, Observations on experimentally induced, 95.

Churchman, J. W., An appendix abscess in a 27-months child; with an analysis of infantile appendicitis in the Johns Hopkins Hospital, 31.

Colloid glands (goitres): their etiology and physiological significance, 131.

Cordell, E. F., Aretaeus the Cappadocian, 371.

Correspondence, 17, 380.

Crowe, S. J., On the excretion of hexamethylenamin (urotropin) in the cerebrospinal fluid and its therapeutic value in meningitis, 102.

Cullen, E. K. and Derge, H. F., The use of silver wire in opening the kidney, 350.

Cushing, H. and Bordley, J., Observations on experimentally induced choked disc, 95.

Davis, S. G., On the effect of narcosis upon the body temperature, 118.

Davis, J. S., The effect of scarlet red in various combinations, upon the epitheliation of granulating surfaces, 176.

Derge, H. F. and Cullen, E. K., The use of silver wire in opening the kidney, 350.

Discussion: Johns Hopkins Hospital Medical Society: Barker, L. F., Fever, 23; Vegetative aortitis with aneurysm of the ascending portion of the aorta, 218; Tumors of the male breast, 220; Use of scarlet red in epitheliation of granulating wounds, 220; —Bloodgood, J. C., Intestinal obstruction, 185;—Cole, R., Fagopyrismus, with report of a case in man, 154;—Cone, C., Use of scarlet red in epitheliation of granulating wounds, 220;—Finney, J. M. T., Intestinal obstruction, 185;—Futcher, T. B., A case of Mikulicz's disease, 89; Relative aortic incompetency of muscular origin, 216; Vegetative aortitis with aneurysm of the ascending portion of the aorta, 218; Exhibition of surgical cases by Dr. Cushing, 291;—MacCallum, W. G., Vegetative aortitis with aneurysm of the ascending portion of the aorta, 218; Diet in typhoid fever, 290; Maury, J. W. D., Intestinal obstruction, 185;—Thayer, W. S., Investigations concerning Rocky Mountain fever, 152; Fagopyrismus, with report of a case in man, 154; Diet in typhoid fever, 290;—West, J. M., The tonsil as a factor in the cause of disease, 89;—Welch, W. H., Investigations concerning Rocky Mountain fever, 152; Intestinal obstruction, 185.

Discussion: Lænnec Society: Hatfield, C. J., The employment of arrested tuberculous patients, 295;—Welch, W. H., Marmorek's serum in the treatment of pulmonary tuberculosis, 295;—Jacobs, H. B., A study of recent educational leaflets, 294;—v. Pirquet, C., Marmorek's serum in the treatment of pulmonary tuberculosis, 294;—Welch, W. H., Tuberculosis of the liver, 294;—Winternitz, M. C., Tuberculosis of the liver, 294.

Donley, J. E., John James Wepfer, a renaissance student of apoplexy, 1.

Epidemic of the Indians of New England, 1616-1620, with remarks on native American infections, 340.

Forster, A. M., The employment of arrested tuberculous cases, 259.

Geraghty, J. T., Persistent bacteriuria, 12.

Gerster, A. G., The life and times of Gerhard van Swieten, 161.

Glycosuria, On the relation of the islands of Langerhans to, 265.

Gundrum, F. F., Post-anæsthetic acidosis, 180.

Hamman, L. and Wolman, S., A further report of the work in the Phipps Dispensary for Tuberculosis of the Johns Hopkins Hospital, 248.

Hamman, L. and Wolman, S., Tuberculin treatment among Dispensary patients, 225.

Hanes, F. M., Multiple hereditary telangiectases causing hemorrhage (hereditary hemorrhagic telangiectasia), 63.

Harrison, P. W., An effort to determine the sensory path from the ocular muscles, 113.

Hewitt, J. H., A case of general infection with *Bacillus mucosus capsulatus* followed by an areolar abscess of the liver and general peritonitis. Autopsy, 77.

Hexamethylenamin (urotropin), On the excretion of, in the cerebrospinal fluid and its therapeutic value in meningitis, 102.

Homans, J., Postoperative pulmonary complications, 125.

Hydrocephalus treated by drainage into a vein of the neck, 110.

Intestinal tract of an infant, Bleeding from the, in the course of alimentary decomposition in the sense of Finkelstein, 323.
Islands of Langerhans, On the relation of, to glycosuria, 265.
Jaundice, A small epidemic of, with symptoms of gastro-intestinal catarrh, 310.
Kidney, The use of silver wire in opening the, 350.
Kober, George M., The influence of sewers and general sanitation upon the prevalence of tuberculosis, 80.
Laboratory technique, Conveniences in, 324.
Lænnec Society prize, 150.
Le Count, E. R., Pleural and pulmonary secondary osteosarcomas, 361.
Lister prize, 150.
Liver necrosis and repair. Chloroform poisoning, 278.
MacCallum, W. G., Dissecting aneurysm, 9.
MacCallum, W. G., On the relation of the islands of Langerhans to glycosuria, 265.
McClure, R. D., Hydrocephalus treated by drainage into a vein of the neck, 110.
Marmorek's serum in the treatment of pulmonary tuberculosis, 253.
Marine, D. and Lenhart, C. H., Colloid glands (goitres): their etiology and physiological significance, 131.
Medical education, Old time, 210.
Meningitis, On the excretion of hexamethylenamin (urotropin) in the cerebrospinal fluid and its therapeutic value in, 102.
Mitral valve, Experimental surgery of the, 107.
"Moderator band" and its relation to the papillary muscles, with observations on the development and structure of the right ventricle, 168.
Moss, W. L., The relation of bovine to human tuberculosis, 39.
Moss, W. L., Tuberculosis—a plan of study, 87.
Muscles, papillary, The "moderator band" and its relation to the, 168.
Narcosis, On the effect of, upon the body temperature, 118.
Note on Committee appointed to report on present status of obstetrical teaching in Europe and America, 392.
Notes and news, 24.
Notes on new books, 25, 59, 90, 130, 154, 186, 220, 296, 325, 360, 381; —Adami, J. G., The principles of pathology, 154;—Adamson, H. G., The skin affections of childhood, with special reference to those of more common occurrence, and their diagnosis and treatment, 90;—Allchin, W. H., Methodus medendi, 27;—Allen, R. Dissecting aneurysm (Plate II, Figs, 1-3), 10.
An appendix abscess in a 27-months child (Charts 1-3), 35-38.
Multiple hereditary telangiectases (Plates III-IV, Figs. 1-5), 72.
Areolar abscess of the liver (Plates V-VI, Figs. 1-5), 78.
Coronal section of cranium, 98.
Experimental choked disc (Plates VII-IX, Figs. 2-14), 100.
The excretion of urotropin in the cerebrospinal fluid (Plate X, Figs. 1-4), 104.
Drainage of hydrocephalus into vein of neck (Figs. 1-3), 111.
Some methods of anastomosing blood vessels (Figs. 1-11), 116-117.
Effect of narcosis upon the body temperature (Charts 1-3), 119-121.
Gerhardt van Swieten (Plate XI), 162.
Section of right ventricle and "moderator band" (Diagrams 1-6), 169.
Use of scarlet red in epitheliation of granulating surfaces (Plates XII-XV, Figs. 1-9), 176.
Pellagra (Plates XVI-XVII, Figs. 1-6), 196; 198.
Deformity of clavicle and right side of chest (Plate XVIII), 202.
Tuberculin treatment (Charts 1-19d), 236-247.
Mobility in ankylosed joints (Plates XIX-XX, Figs. 1-12), 273.
Liver necrosis and repair (Plates XXI-XXIII, Figs. 1-12), 228.
Step-like line of Kroenig, 298.
Electrophonogram of the heart sounds, 299.
Schematic representation of the roentgenoscopic view of the thorax, 299.
Cardio-vascular shadow, 300.
Frontal transillumination of thorax, schematic, 300.
Thorax in oblique transillumination, 300.
Dorso-ventral illuminations (Figs. 7-13), 301.
Schematic representation of orthodiagraph, 301.
Orthodiagrams (Figs. 15-16), 301.
Polygraph of Mackenzie and Jacquet's cardiosphygmograph, 302.
Comparison of cardiograms, 302.
Carotid arteriogram, 303.
Phlebograms (Figs. 21-25), 303.
Phlebo- and arterio-grams (Figs. 26-27-32), 304.
Pulsus alternans in paroxysmal tachycardia, 304.
Systolic tracings (Figs. 29-31), 304.
Pulsus irregularis perpetuus, 305.
Tonometer of von Recklinghausen (Figs. 34-35), 306.
Erlanger's apparatus (Figs. 36-37), 306.
Apparatus of Hooker and Eyster, 307.
Distribution of cardiac electricity on the surface of the body, 307.
Normal electrocardiogram and analysis of (Figs. 40-42), 308.
Electro-cardiograms (Figs. 43-45), 309.
So-called splintering of the curve in myocardial disease, 309.
Galvanometric portion of an electro-cardiographic station, 309.
Primary melanotic sarcoma of the ovary (Plates XXIV-XXV, Figs. 1-7), 316.
Treatment of tuberculous sinuses with Beck's bismuth paste (Plates XXVI, Figs. 1-3), 322.
A dissection as understood in the fifteenth century, 332.
Muscles of the abdomen as shown in early illustrations, 332.
Jacobus Sylvius, 333.
View of the ventricles of the brain, 335.
View of a dissection of the brain, 335.
View of a dissection of the fourth ventricle of the brain, 336.
Franciscus de la Boe Sylvius, 339.
Pleural and pulmonary secondary osteosarcomas (Plates XXVII-XXIX, Figs. 1-11), 370.
Reverse-curve iridectomy scissors, 377.

The Johns Hopkins Hospital Bulletins are issued monthly.
